

How to Run:

Download: <https://www.anaconda.com/download/>

Install Jupyter Notebook on your mac or Windows system.

For windows: Search for the Anaconda prompt.

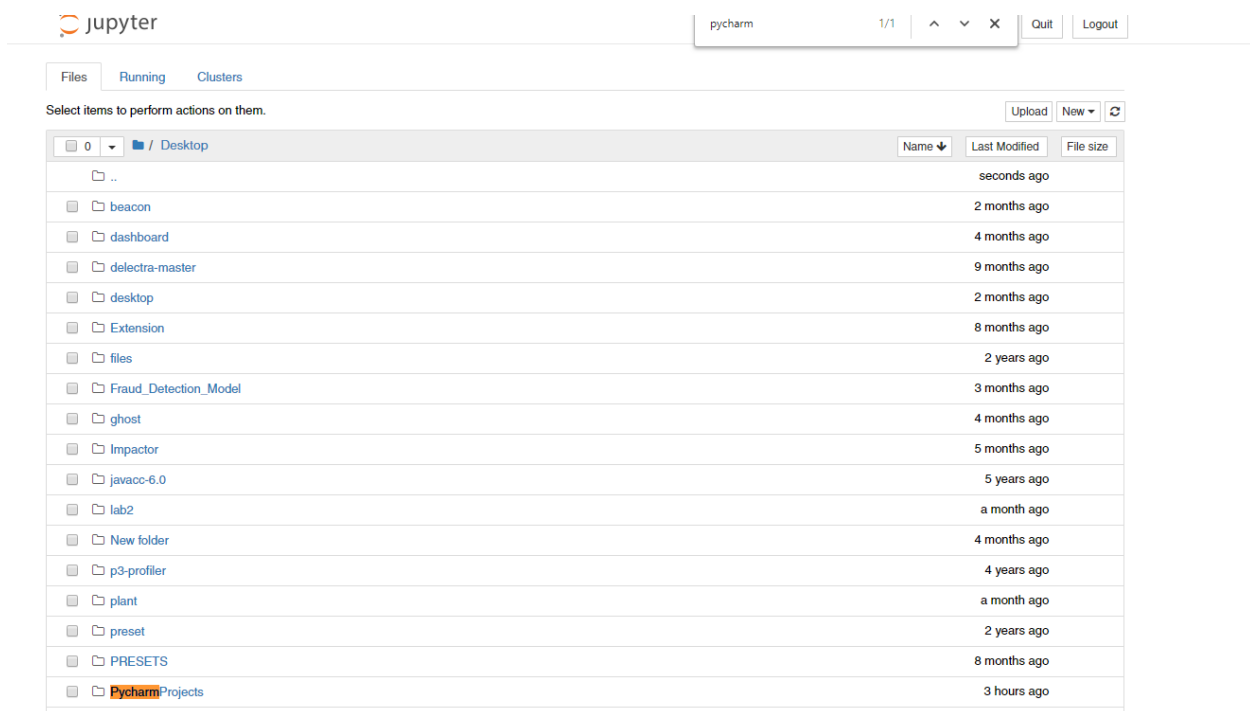

When opened type “jupyter notebook”:

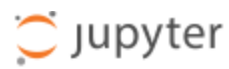

```
(base) C:\Users\8fact>jupyter notebook
```

On mac, you type jupyter notebook in the terminal.

A localhost browser tab will open:

Then click the fraud detection.ipynb file.
